

STOWMASTER™

America's Best-Selling Car-Mounted Tow Bar

6,000 lb. weight capacity car-mounted tow bar

- Stainless steel in virtually every moving component for smooth, trouble-free operation.
- Autowlok locking mechanism – allows both tow bar arms to extend or retract for a quick connection. Then, as you drive away, the arms self-center and automatically lock.
- Full-length safety crossbar – a full-length angle iron brace is integrated into the rear of the bar for maximum support.
- Self-lubricating nylon bushings eliminate friction between the inner and outer arms. Other tow bars use steel on steel.
- Plug-welded arms – steel plugs seal both ends of the tow bar, preventing corrosion from moisture and debris.
- A lustrous, high-tech powder coat finish for maximum durability.

TRACKER™

The safest, strongest, easiest, most durable, trouble-free,
5,000 lb. rated, 'A' frame tow bar manufactured...
...BAR NONE!

The STOWMASTER mounts on the towed vehicle and can be easily removed in seconds!

Autowlok™ System

Autowlok™ System makes STOWMASTER an easy, one-person hook up and disconnect!

Full-length Safety Strap

Although you may never need it, it's nice to know that ROADMASTER has built in a safety strap into the STOWMASTER that will prevent the separation of the tow bar in the unlikely event the primary lock should not function. Peace of mind built right in.

- 501** STOWMASTER tow bar
- 581** STOWMASTER tow bar w/ pintle hook
- 9254** STOWMASTER combo kit
