## Receiver Hitch Types

### Custom Fit 1 Piece

Custom fit hitches are the easiest to install. These application specific hitches are available in Class II, Class III, Class IV, and Heavy Duty.

### Multi-Fit 3 Piece

Designed to fit a wider range of vehicles than Custom Fit hitches, the Multi-Fit units require some assembly. Popular for retail and when stocking a limited line of hitches, the Multi-Fit units are available in Class II, Class III, and Class IV.

### Choose the right hitch to handle the load

Trailer Types:						
Hitch Class:	Class I	Class II	Class III	Class IV	5th Wheel	Gooseneck
Maximum Load Capacity:	Gross Trailer Weight Up to 2,000 lbs. Tongue Weight Up to 200 lbs.	Gross Trailer Weight Up to 3,500 lbs. Tongue Weight Up to 350 lbs.	Gross Trailer Weight Up to 5,000 lbs. Tongue Weight Up to 500 lbs.	Gross Trailer Weight Up to 12,000 lbs. Tongue Weight Up to 1,200 lbs.	Gross Trailer Weight Up to 24,000 lbs.	Gross Trailer Weight Up to 25,000 lbs. Tongue Weight Up to 6,250 lbs.
Tow Vehicle						
Sub Compact & Compact Cars	X	Not Recommended	Not Recommended	Not Recommended	Not Applicable	Not Applicable
Mid Size Cars	X	X	Not Recommended	Not Recommended	Not Applicable	Not Applicable
Mid Size Pickups & Sport Utility Vehicles & Minivans	X	X	X	Not Recommended	X Pickups Only	X Pickups Only
Full Size Cars Pickups & Sport Utility Vehicles & Minivans	X	X	X	X	X Pickups Only	X Pickups Only

**Gross Trailer Weight** is the total weight of the trailer as it is towed.  
This includes the weight of the trailer and all of its contents.

**Tongue Weight** is the load supported by the hitch when the trailer is connected to the trailer ball.  
Excess tongue weight will cause unstable towing as weight is shifted  
from the vehicle's front suspension to the rear suspension.

## Combination Ball/Pintle Hitch

& Receiver Mounted Pintles

(See page G18 & G19 for pintle mounts for receiver hitches)

## B & W Gooseneck Hitches

The B & W Turnover Ball™ System converts from a towing unit to a level bed in less than 30 seconds. Another much appreciated benefit is the ease of installation. The hitch bolts directly to the frame under the bed using the existing holes. 30,000 lbs capacity.

## Tow Bars

Part #	Brand	Description
TDB		Arm adjust up to 42" wide. 5,000 lbs towing capacity. Fits 2" balls, rust-resistant black, powder-coated steel.

## Aventa LX™

Part #	Brand	Description
BX7445		<ul style="list-style-type: none"> <li>Ball-in-socket cutting edge design</li> <li>Self-aligning, with quick disconnect hookup pins</li> <li>Dependable steel construction</li> <li>10,000 lbs Class IV rating</li> </ul>

## Aladdin®

Part #	Brand	Description
BX4325		<ul style="list-style-type: none"> <li>Easy fold-away aluminum motorhome mount tow bar</li> <li>Self-aligning, with 3-axis swivel design</li> <li>The ultimate in quick disconnecting</li> <li>5,000 lbs Class III rating</li> </ul>

## Acclaim™

Part #	Brand	Description
BX4330		<ul style="list-style-type: none"> <li>Easy-folding, self-aligning, ball mount tow bar</li> <li>Automatically locks into towing position</li> <li>Detaches with two pins</li> <li>5,000 lbs Class III rating</li> </ul>

## Ambassador™

Part #	Brand	Description
BX7302		<ul style="list-style-type: none"> <li>A-frame tow bar</li> <li>Mounts to towed vehicle baseplate</li> <li>Quick mounting and dismounting</li> <li>5,000 lbs Class III rating</li> </ul>

### Base Plates

Removable tabs further enhance the aesthetics. When you aren't towing, just remove the tabs to make your base plate virtually invisible to the casual observer. When you're ready to tow, the tabs are easily locked into place.

NOTE: Base plates for specific vehicles are available by special order!

## Tail Light Wiring Kit

Part #	Brand	Description
BX881I		<ul style="list-style-type: none"> <li>Connects towed vehicle light system to the RV's brake light wiring</li> <li>Includes diode block to prevent electrical feedback</li> </ul>

## Safety Cable Kit

Part #	Class	Brand	Description
BX88196	Class III		<ul style="list-style-type: none"> <li>Plastic-coated, aircraft-grade cable</li> </ul>
BX88197	Class IV		<ul style="list-style-type: none"> <li>Heavy-gauge steel connectors</li> </ul>

## Balls

A "Ball" is the spherically shaped member with a neck and seat. The seat rests upon a hitch platform. A threaded portion of the ball shank extends through the hitch platform and is fastened to it with a lock washer and nut so that the ball will remain tight on the hitch.

### Classification:

Balls are classified by relating the diameter of the ball to a specific Trailer Classification.

Trailer Classification	Ball Diameter
Class 1	1 $\frac{1}{8}$ "
Class 2	2"
Class 3	2"
Class 4	2 $\frac{5}{16}$ "

### Types:

There are many types of balls on the market. Some are made in one piece, others are made in two or more pieces (a bolt extends down through the center of the ball portion). They are also made in various heights and shapes.

### Identification:

Most balls are identified on the top with the ball diameter such as 1 $\frac{1}{8}$ ", 2", etc. The ball should be used with the Trailer Classification as described above. It is recommended that a ball conforming to the strength and dimensional requirements of SAE J684 be use with a BULLDOG coupler.

## 1 $\frac{1}{8}$ " Ball Diameter (A)

## B & W Receiver Hitch

The B&W Tow & Stow™ Receiver Hitch is a revolutionary ballmount that is not only the most versatile on the market, but also the safest. The Tow & Stow™ allows you to keep it attached to your vehicle at all times, plus keep it out of the way with its patented stow-away design. Its innovated design allows the ballmount to stow underneath the vehicle to help prevent getting bruised shins and broken garage doors. The Tow & Stow™ has up to a Class IV rating so you can tow almost anything worry free.

- Eliminate the need for multiple ball mounts.
- Stow under the vehicle when not in use.
- Keeps the hitch out of the way of shins and garage doors.
- Manufactured from solid steel for a lifetime of reliable towing.
- Fits any standard 2 inch receiver hitch.
- Rotate the ball to the desired size.
- Raise or lower the hitch in one inch increments for a safe level tow.
- Available in 6, 8 and 10 inch models.
- Triball mount is available in 1 $\frac{1}{8}$ " x 2" x 2 $\frac{5}{16}$ ".
- Double ball mount is available in 2 $\frac{5}{16}$ " x 2" or 1 $\frac{1}{8}$ " x 2".
- Black powder coated for a durable and long lasting finish.

Pull the pins... Rotate the ball Adjust the height... Stow the hitch!

TS10047B

86112	2"	20" x 60"	500 lbs	Solid	Galvanized Steel	Order adapter #86115 for 1 1/4" receivers

## Weight Distribution & Sway Control

Weight distribution kits are recommended for vehicles towing weights in excess of 5,000 lbs. Weight Distribution removes excess weight from rear axle of the tow vehicle (fig. 1) and distributes it over all axles of the vehicle and trailer (fig. 2). Weight Distribution provides level load, better braking and handling, less strain on vehicle and greater towing capacity.

info

## Weight Distribution Kits

(More weight distribution kits and replacement parts available by request)

Part #	Rated Capacity Tongue Weight Gross Trailer Weight	Drop
51090	1,200 lbs 12,000 lbs	Round bar style with built in sway control ball platform. Includes brackets, handle, bars, chain, hitch head, 10" shank and hardware. Allows up to 5¾" rise and 2¼" drop.
51091	1,000 lbs 10,000 lbs	Trunnion (square) bar style with built in sway control ball platform. Includes brackets, handle, bars, chain, hitch head, 10" shank and hardware. Allows up to 6¾" rise and 1¼" drop.
6637	-	Hook-up brackets (1-pair) with handle.
3210	-	Shank only
3216	-	Chain kit. Contains 2 chains, u-bolts, nuts and lock washers.
3311	-	Round bar retainer spring clips. Includes 2 spring clips and screws.
62115	1,000 lbs	Round spring bar kit. Contains 2 spring bars and chain kit.
3279	-	Round bar hitch head. Includes attachment hardware, pin and clip.
6666	1,000 lbs	Trunnion spring bar kit. Contains 2 spring bars and chain kit.
7979	-	Trunnion bar hitch head. Includes attachment hardware, pin and clip.

## Sway Control

(More sway control kits and replacement parts available by request)

Part #	Drop
51092	Friction Sway Control Assembly. Used to reduce trailer sway and improve handling in adverse conditions. Easy hook-up and removal. Adjustable friction for multiple towing situations.
3401	Sway Control Fastener Kit. Includes mounting hardware (self-tapping screws) and clips.
3422DT	Inner slide bar with vehicle end socket.
3442DT	Weld-on ball mounting bar
3443	1¼" ball with ⅝" shank. Includes nut and lock washer.
3458	Main body assembly. Does not include inner slide bar.
3473-DT	Ball and plate assembly. Trailer side. Does not include mounting hardware or clip.
40660	Standard friction sway control and adapter, screw-on sway control assembly w/hardware. Black powder coat finish.

## 1,000 to 18,000 lb Hitches and Receivers

Complete information and application charts for Draw-Tite products are available on request. We stock a large assortment of hitches. If you need a hitch or part, and do not have our hitch literature, **just tell us the Make, Model and Year of Vehicle, Capacity required, Ball Size (if needed) and any other Pertinent Facts.** You will get the best hitch we have available for the vehicle and load.

### Note:

GTW = Gross Trailer Weight (pounds)

TW = Tongue Weight (pounds) provides level load, better braking and handling, less strain on vehicle and greater towing capacity.

### Class I Sportframe Hitches Part No. Series 24XXX

Economical Class I receiver style hitch includes removable drawbar, pin & clip. 1 1/4" square receiver tube opening. Attaches to frame and bumper.

### Class II Frame Hitches Part No. Series 35XXX

Receiver style hitch includes removable drawbar, pin & clip. 1-1/4" square receiver tube opening. Attaches to frame.

### Square & Round Tube Max-Frame Receivers Part No. Series 75XXX

Designed for vehicles rated 8,000 lb or less. 2" square receiver tube opening. Attaches to frame.

### Max-E-Loader Receivers Part No. Series 41XXX

Long side bracket design distributes the towing load over a greater portion of the tow vehicle frame, making it the ideal receiver for maximum duty. 2" square receiver tube opening. Attaches to frame.

### Ultra Frame Receivers Part No. Series 419XX

Strong and secure heavy duty side bracket design. 2" square receiver tube opening. Attaches to frame.

### Titan™ Receivers Part No. Series 45XXX

Strong and secure heavy duty side bracket design. 2-1/2" square receiver tube opening. Pin, clip, receiver tube cover, and welded electrical bracket included. Attaches to frame.

### Front Mounted Receivers Part No. Series 650XX

For winches, accessories, or spotting. 2" square receiver opening. Attaches to frame.

## Pro Series™ Class III/IV Square & Round Tube Receiver Hitches

- Solid all-welded construction for maximum strength and safety
- Custom built according to manufacturer & model year to ensure perfect fit and top towing performance
- Computer-aided design and fatigue stress testing ensure a strong design that will withstand road abuse within specified capacities
- All hitches meet or exceed V-5 and SAE J684 standards and are inspected for quality and workmanship
- Backed by a nationwide 3-year limited warranty
- 2" square receiver tube opening
- Pro Series™ receivers are designed for customers with trucks, vans and sport utility vehicles
- Designed for today's stylish sport utility vehicles, round tube receivers complement vehicle appearance
- All frame attachments
- J-Pin ready

**FOOTNOTE:**

AA	Requires temporary removal of bumper during installation.
AB	Requires four (4) 3/8" spacer blocks (#01077011) for installation. (Sold separately)
AI	Additional installation time may be required.
AL	Additional installation time required for vehicles equipped with load leveling compressor.
CA	Models with dual exhaust require exhaust modification.
CN	Requires OEM factory bumper for hitch installation.
CP	Fits all models without factory installed receiver.
CS	Will fit with full-size spare tire stowed under vehicle.
DU	Fascia removal required.
EB	Factory electrical bracket will NOT fit with this hitch. Must use aftermarket electrical box or bracket.
EO	Requires longer ball mount.
EP	Fascia trimming may be required.
FP	Spare tire repositioning and/or modification of spare tire carrier may be required.
FS	Includes 2 & 4 WD models with heavy duty suspension.
GP	Hitch crosstube concealed behind bumper.
GU	Will not fit vehicles with factory or aftermarket lower Fascia/Rollpan or Tube Bumper.
HA	External dress panel beneath 95-97 and 03-05 vehicles must be removed for hitch installation.
HM	Hitch crosstube is visible beneath bumper.
HX	Minor exhaust modification may be required.
JL	Installation requires OEM bumper and brackets.
JR	Exhaust must be temporarily lowered for installation.
KH	Minor heat shield modification may be required.
KM	Does not work with models originally equipped with OEM hitch.
L	Exhaust repositioning required.
LT	Requires removal of factory hitch if equipped.
SO	With this hitch installed the step bumper is no longer able to be used as a towing point.
SV	Trimming or removal of under body appearance panel may be required.
SY	Hitch crosstube is visible beneath bumper with a more than normal gap between fascia and crosstube.
TP	Works with hands-free liftgate option.
V	For vehicles with factory installed step bumpers only.
